MUHAMMAD SHAHZAD KHADIM

Date of birth: 28/10/2001 | **Place of birth:** Pakistan | **Nationality:** Pakistani | **Gender:** Male | **Phone:** (+92) 3188149647 (Mobile) | **Email address:** studyofficial257@gmail.com | **Address:** Masjid Abu Bakar Siddique Dhok Jalani Bus Stop Bara Kahu Islamabad, 45710, Islamabad, Pakistan (Home)

ABOUT MYSELF

Computer Science graduate from Kohat University of Science and Technology specializing in cybersecurity, penetration testing, and secure system design. Experienced in identifying vulnerabilities using OWASP methodologies and developing secure web applications. Engaged in UK-based remote research collaboration and currently pursuing an online cybersecurity certification from St. Louis Community College, USA.

EDUCATION & TRAINING

25/10/2021 - 23/07/2025 - KHYBER PAKHTUNKHWA, PAKISTAN

BACHELOR OF SCIENCE IN COMPUTER SCIENCE (B.SC. COMPUTER SCIENCE)- KOHAT UNIVERSITY OF SCIENCE AND TECHNOLOGY

Field(s) of study: Computer Science | **Final grade:** CGPA 3.33/4.00 | **Level in EQF:** 6

10/03/2018 - 27/07/2020 - KHYBER PAKHTUNKHWA, PAKISTAN

HIGHER SECONDARY SCHOOL CERTIFICATE (F.SC. PRE-ENGINEERING)- KARWAN MODEL COLLEGE, KOHAT, PAKISTAN

Final grade: 899/1100 | **Level in EQF:** 4

10/03/2016 - 12/03/2018 - KHYBER PAKHTUNKHWA, PAKISTAN

SECONDARY SCHOOL CERTIFICATE (SSC – SCIENCE GROUP)- APSACS (ARMY PUBLIC SCHOOLS AND COLLEGES SYSTEM), KOHAT, PAKISTAN

Final grade: 812/1100 | **Level in EQF:** 3

NETWORKS AND MEMBERSHIPS

Remote

Remote Research Collaboration , UK-Based Co-author of research publications through remote collaboration with University of Reading (UK) researchers.

Remote

Officially Enrolled in Cybersecurity Certification Program – St. Louis Community College, USA Currently enrolled in a cybersecurity certification program at St. Louis Community College (USA), focusing on information security, ethical hacking, and secure system practices.

LANGUAGE SKILLS

Mother tongue(s): **URDU**

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	B2	C1	B2	C1	C1

SKILLS

Cybersecurity
Ethical Hacking | Penetration testing (web, network, and system) | Post-exploitation and reporting | Explain the importance of methodological ethical hacking and penetration testing | Create penetration testing preliminary and assessment documents | Perform information gathering and vulnerability scanning activities | Identify how social engineering attacks succeed | Exploit wired and wireless network vulnerabilities | Exploit application-based, cloud, mobile, and IoT vulnerabilities | Conduct post-exploitation and privilege escalation activities | Create comprehensive penetration testing reports | Classify and apply penetration testing tools based on use cases

Network Security And Support
Demonstrate effective troubleshooting methodologies and help desk best practices | Explain common threats, vulnerabilities, and endpoint attacks | Configure secure user access and authentication on a network | Manage and maintain LAN/WAN network environments | Install and configure network devices (routers, switches, firewalls) | Monitor network performance and security logs | Apply network hardening and access control techniques

Ethical Hacking Tools
Kali Linux | Metasploit Framework | Burp Suite | Nmap | Wireshark | Hydra | SQLmap | OWASP Top 10

Network Security Tools
Cisco Packet Tracer | pfSense | Windows Server / Active Directory | Linux Network Utilities

Web Development
Front-end development | HTML | Cascading Style Sheets(CSS) | JavaScript | Tailwind | React.js

Personal / Soft Skills
Leadership & Teamwork | Strong Leadership Skills | Effective Team Leader | Leadership and Problem-Solving | Team Coordination & Communication | Decision Making under Pressure | Time Management & Responsibility

CERTIFICATIONS

10/03/2025 Google
Foundations of Cybersecurity

- Recognized core cybersecurity skills, understood business impact of attacks, explained security ethics, and identified commonly used tools by cybersecurity analysts.

WORK EXPERIENCE

01/07/2023 - CURRENT - PAKISTAN

DEV K SYSTEM SOFTWARE HOUSE JUNIOR CYBERSECURITY ANALYST

Performed web penetration testing, identifying OWASP vulnerabilities using Kali Linux tools, producing technical reports, remediation guidance, security documentation, and supporting network, firewall, Active Directory, and web application hardening.

PROJECTS

08/02/2024 - 30/03/2024

VulnTrack – Web App Security Testing Project Developed and executed a web application security assessment against authentication and access control vulnerabilities according to OWASP methods with penetration testing tools and fixes for improving the application security posture.

04/05/2024 - 02/07/2024

SecureAudit – Web Application Penetration Testing Project Developed a sample web application and performed penetration testing to detect SQL Injection, XSS, Authentication issues, session vulnerabilities with industry tools. Generated the vulnerability assessment and remidiation report as per OWASP security practices.

10/08/2024 - 23/07/2025

Emergency Care (Final Year Project) I developed and designed the application, and did good amount of penetration testing. In testing stage, I discover and eliminated open doors to exploitation SQL injection, XSS, etc. and also compromised user & session authentication mechanisms. This project helped me grasp the concept of a secure system architecture and showed me how crucial cyber security is in critical and life-sustaining applications.

15/09/2025 - CURRENT

SmartTask – Web-Based Task Management System Constructed web-based application provided up-to-date tracking of progress with user authentication and role-based access control. Optimized database functions to achieve better level of system performance efficiency and data consistency, achieved boosting in software solution development and design skills.

03/02/2026 - 24/02/2026

Personal Portfolio Website Designed and developed a high-performance, responsive portfolio using **React, TypeScript, Vite, and Tailwind CSS** with **Lucide** icons. Focused on type-safe development and optimized build processes while ensuring a secure-by-design architecture to prevent common web vulnerabilities.

CONFERENCES & SEMINARS

Kohat University of Science and Technology (KUST), Pakistan

Cybersecurity Awareness Seminar

Zyntech Online Professional Training Platform
Web Application Security and OWASP Top 10 Seminar

Kohat University of Science and Technology (KUST), Pakistan
Emerging Trends in Computer Science and Artificial Intelligence Seminar

CREATIVE WORKS

01/01/2025 - CURRENT

Cybersecurity & Web Development Projects (GitHub Portfolio) Developed and published multiple cybersecurity and web-based projects on GitHub, focusing on secure application development and vulnerability mitigation. Projects include implementation of OWASP Top 10 security practices, penetration testing tools, and full-stack web applications. Demonstrated practical expertise in ethical hacking, secure coding, and system protection using tools such as Kali Linux, Burp Suite, and Metasploit.

VOLUNTEERING

03/12/2025 - 15/02/2026 Remote

Cybersecurity Mentor (Volunteer) Mentored 10+ students in cybersecurity fundamentals including ethical hacking, OWASP Top 10 vulnerabilities, and security tools such as Kali Linux and Burp Suite. Conducted online sessions via Zoom and WhatsApp groups, providing hands-on guidance and practical learning support.

07/01/2026 - CURRENT Remote

Open Source Contributor (Cybersecurity Projects) Developed and published security-focused tools and web applications on GitHub, implementing secure coding practices. Contributed to open-source projects and shared practical cybersecurity solutions.

01/03/2026 - CURRENT Pakistan

Community Cybersecurity Support Initiative Provided free vulnerability assessments and security recommendations to local small businesses and websites. Identified common security flaws and suggested improvements aligned with OWASP standards to enhance digital protection in the community.
